

Times Newspaper Education Teachers' Meet

Event Summary:

The Times Newspaper Education Teachers' Meet, held in association with the Nuclear Power Corporation of India (NPCIL), took place at the Hilton Hotel in Chennai on Thursday, August 22, 2024. Two delegates from the Jacob Group of Schools, **Mr. Joseph Johnson (JMS Branch Head)** and **Ms. Gladies Luie (JMHSS Branch Head)** attended the event.

Participation and Objectives:

Approximately 165 teachers from 162 schools participated in the meet. The primary objective was to dispel the misconception that nuclear energy is risky and dangerous. Instead, the event aimed to promote nuclear energy as a clean, sustainable, and viable source of energy. The educators were encouraged to become ambassadors of nuclear energy and raise awareness among future generations.

Key Points:

- **Radiation is omnipresent:** The meeting emphasized that radiation is a natural part of our environment, found both in the atmosphere and within our bodies.
- **Safe alternative:** Nuclear energy was presented as a safe and reliable alternative to conventional energy sources.
- **Interactive activities:** The event included a quiz, a poster-making session, and an impromptu skit.
- **Jacob Group's success:** **Ms. Gladies Luie**, the JMHSS Branch Head, participated in the skit and secured a **win** for her team. The Jacob Group of Schools congratulates her for this achievement.

Next Steps:

The branch heads of the Jacob Group of Schools are tasked with disseminating the information about nuclear energy to all students. This will ensure that the positive message about nuclear energy reaches the entire student body.
